FABULOUS FOREVER

IF APPEARANCE AND AN ATTRACTIVE outlook are the first litmus test, Vedure MediBoutique welcomes you to pass the test with flying colours. Comprising medical doctors and seasoned spa professionals, it offers tailor-made, personalised treatments.

Presenting alternatives to surgical procedures, Vedure helps you escape the knife and is highly effective in assisting you to gain the complexion and figure you've always wanted. Open to men and women seeking to maintain their well-

groomed demeanour, Vedure MediBoutique's range of bespoke services include wrinkle reduction, bust firming, face contouring, body sculpting, general slimming procedures, hair removal, acne removal and other services. Indeed, its motto lies in "creating a sublime effect on your overall well-being," reveals Elizabeth Leong, Vedure's marketing communications director.

Presently, Vedure occupies two premises in the heart of town – Millenia Walk and Wheelock Place. Both feature lush environments and softly-lit treatment suites, complete with sensuous

music and soothing colours, providing a choice setting for pampering and relaxation. The intimate lounge area offers a tranquil space to allow you to recover from the day's stress, pre and post treatment.

Vedure's team of skilful therapists and skin specialists believe beauty is the best introduction, and they are committed to helping you create your optimal appearance via signature treatments, Grandiose and Vibrance.

A luxurious, non-invasive procedure which revitalises your skin by tightening the facial muscles, Grandiose dramatically adds vitality to your appearance and greatly reduces eye bags and dark eye rings.

Vibrance is exclusive to Vedure and uses micro-spheres to gently exfoliate skin tissues while bringing a myriad of benefits to your skin's epidermal layers through the use of blue and red LED light. The treatments use world acclaimed technology which counts famous faces such as Mel Gibson, Cliff Richard and the late Princess Diana among its fervent supporters. As Leong puts it, "At Vedure, we are committed to helping our customers look younger, longer."
