

# pamper me beautiful

Looking good is about feeling good. With its plush setting and luxurious clinical treatments, Vedure MediBoutique has perfected the art of self-indulgence.

**If you've dreamed of a place where you could get cutting-edge skincare treatments** amidst luxurious sensual settings, then prepare yourself for a visit to Vedure MediBoutique.

What makes it even more pleasurable is the knowledge that all the treatments are specially designed by medical doctors and seasoned spa professionals, and can be customised to an individual's lifestyle and needs.

Vedure's signature anti-ageing treatment, Grandiose, presents a natural alternative to collagen injections for

flawless skin. A relaxing non-invasive procedure, it features state-of-the-art aesthetic machines, which help to produce a slew of benefits, including improved micro-circulation, smoother and brighter skin, and visibly reduced dark undereye circles. Celebrity followers of this world acclaimed technology include Cindy Crawford, Kim Basinger and Olivia Newton-John.

Another treatment to experience is Vibrance, an exclusive premium face treatment that is only available at Vedure in Singapore and at globally famous spas in Europe. It uses micro-spheres that gently exfoliate and stimulate skin while LED light delivers active key ingredients to the deeper layers, so skin feels softer and younger.

Other specialised treatments, carried out in lush private rooms that comfort the senses, include wrinkle reduction, bust firming, body sculpting, slimming procedures, acne removal, hair removal and other services.

Believing that beauty is the best introduction, Vedure's team of skilled therapists and skin specialists are committed to helping you create your optimal appearance. Says Elizabeth Leong, Vedure's marketing director, "Our goal is to help you look younger longer."

For a full list of treatments call Vedure MediBoutique Millenia Walk at 6336-2455 or Vedure MediBoutique Wheelock Place at 6732-6448. You can also log on to [www.vedure.com](http://www.vedure.com)
