Most Decadent Hand Care **VEDURE** La Mer Manicure

Highlights Hands get the red-carpet treatment with Vedure. First, they're treated to a luxurious sloughing with La Mer's diamond-flecked Body Refiner. It promotes brighter, youthful skin as the healing Miracle Broth found in La Mer's anti-aging body serum is soaked into hands and abused cuticles. Once snugly fit into electric mittens, hands rediscover a newfound suppleness as they're massaged and polished to perfection with OPI.

Why We Love It Furnished with plush interiors, this is the ideal place to pamper and de-stress. Recline in a cosy couch as the skilled therapist massages your tired hands and arms with opulent La Mer products, leaving you with soft and silky hands that are irresistible to the touch.

Need To Know The multi-action skin refiner used contains almost two carats of pure diamond powder and polished sea quartz which work to gently exfoliate skin while the minerals stimulate blood circulation. Dull skin gives way to a brighter complexion illuminated with radiance. *La Mer Manicure is \$120 for 105 minutes. Available at Vedure Nail Spa, #04-06/B Wheelock Place.*
